

Payment Variance Recovery

Revenue Integrity

Find every dollar, recover every payment

Uncover, Recover, Maximize

Payers shortchange claims in ways that are difficult to catch—from hidden adjustments to incorrect rates. They can be hard to spot and harder to fix.

Advanced Proprietary Technology

Compass, our advanced AI tech, powers faster revenue recovery to uncover and resolve payment variances.

Comprehensive Review

Zero-balance review reveals untapped revenue—payer errors, stop-loss cases, and coding oversights.

Strategic Expertise & Root Cause Analysis

With a team of 180+ legal, 80+ clinical, 900+ claims specialists, & 35 AI engineers we maximize your revenue.

Let us handle it. With experts in zero-balance review and underpayment recovery, our team finds the missing revenue others miss—with speed.

False Positive Reduction

We prevent future revenue loss by fixing root causes, eliminating false positives and pursuing every dollar.

Dedicated Account Management

Your dedicated success director guides payment variance workflows, ensuring maximum recovery.

Elite Data Security Standards

We protect your data with industry-leading security through HITRUST Risk-based, 2-year (r2) Certification.

"I'm quite impressed with the speed in which you and your team have identified this initial financial opportunity.

This has provided a valuable assessment of our processes and identified a number of opportunities. I'm sure we will meet and exceed our goal."
