

Meet ClinIQ

The AI Powering Our Clinical Denials Intelligence

Denials keep coming back—without clear insight into why.

The solution. Our Denials Management experts use ClinIQ—our proprietary clinical intelligence AI platform—to surface clinical documentation gaps to help strengthen and improve your overturn rates.

Case Strength Visibility

See exactly where your case stands. ClinIQ assesses the strength of case against evidence-based criteria, pinpointing precisely where your documentation and evidence fall short.

Smarter Prioritization

Know where to focus first. ClinIQ surfaces high-impact trends across diagnoses, payers, and denial reasons—at a scale manual review can't achieve—giving you a clear prioritized path to improvement.

Actionable Insights

Act on clear guidance. Your Client Success partner delivers clinical documentation strengthens your CDI and UM teams can put to work right away.

Denial trends you see. Root causes you fix. Stronger evidence, every appeal.

No licensing fees, no added cost—this is simply part of how we deliver your denials management services.

1 Leverage

Leverages the clinical evidence DocIQ extracts from denials.

2 Identify
