

Meet DocIQ

The AI Powering Our Denials Management Services

Payers accelerate denials with AI. Limited staff can't keep pace—millions in revenue go unpursued.

The solution. Our Denials Management experts use DocIQ—our proprietary AI platform—to pursue every recoverable denial at scale, delivering industry-leading overturn rates without burdening your team.

Industry-Leading Results	Unlimited Scalability	No Systems To Learn
 <p>Superior overturn rates through AI precision and human oversight. DocIQ analyzes denial letters and medical records, compares them against clinical guidelines and payer policies, then generates validated appeals—recovering revenue you'd otherwise write off.</p>	 <p>Every recoverable denial gets pursued, not just high-dollar ones. DocIQ enables consistent quality at unlimited scale. We manage the complete appeal process from submission to collection—freeing your team to focus on what matters most.</p>	 <p>No new systems to implement. No training required. No workflows to manage. Our service-based approach means we handle everything while DocIQ continuously evolves—keeping you ahead of payer technology without any burden on your team.</p>

YOUR REALITY COULD LOOK LIKE THIS:

2.2x faster first appeals. 10%+ higher overturn rates. 20 days faster time to cash.

1 Analyze

Ingests denial letters and medical records using Large Language Models (LLMs).

2 Compare

Validates documentation against clinical care guidelines, payer policies, & coding guidelines.

3 Craft

Generates comprehensive appeals citing specific clinical evidence, validated by our experts.

4 Recover

Achieves industry-leading overturn rates—from submission to collection.
