

New System Conversion? No Problem

You've most likely heard the statistic: When converting to a new system, expect a 30-50% decrease in staff productivity. We are here to prove it wrong.

Let Us Do the Heavy Lifting

We'll optimize your billing and accounts receivable collection efforts by hosting your legacy system without interruption so you can transition smoothly to your new system. No conversion program is required and no need for you to maintain your old system—it's just that simple!

How We Do It

- We manage all accounts receivable in your legacy system to keep cash flowing and minimize collections slippage
- We host your legacy system post-conversion to ensure legacy AR account access for your team
- We provide detailed follow up and reporting so you'll always know how we're performing

"I was excited about our new system but concerned about how my limited staff would handle the transition.

Aspirion substantially **exceeded our AR collection goals** while enabling the business office and revenue cycle staff to **increase productivity and speed adoption of the new system.**"

VP of Revenue Cycle

6-hospital Not-for-profit Health System

**With significant funds already invested in your new system—
you likely can't afford a drop in productivity. Let us help, reach out to us today.**
