

Workers' Compensation Claims Management

With Aspirion's advanced technology and in-house clinical and legal support, you can expect optimal reimbursement on these often underpaid or inappropriately denied workers' compensation claims.

Why Choose Us

Our attorney supported Workers' Compensation team is fluent in all state regulations, making us experts in maximizing and speeding time to collect while ensuring compliance. We are proud of our average **90 percent success rate**, and our clients are too.

"For a couple of years now, we have been using Aspirion's complex claims services for our VA and **Workers' Compensation claims**. The firm specializes in those and does great work. **Our AR days have decreased since using their services, and that means money is coming back faster.** The firm turns claims around very quickly, and they are knowledgeable and know what they are doing."

Exhaustive Investigation

We investigate and determine the correct payer and/or additional insurance(s) that may exist while obtaining the necessary paperwork to submit clean claims.

Speed to Resolution

We aggressively follow up until resolution and payment with in-house legal, clinical, and coding support. We represent you as a direct party to ensure payment, plus pursue penalties and interest when needed.

Tailored Staff Education

We train your staff by providing best practices to increase team knowledge, competencies, and productivity, including all approval processes of non-emergency claims.
